Power Factor Pin Shoots are held at Peter's Indoor Range, Gratiot, South of 12 Mile Rd., in Roseville. The range opens at **3:45 PM**. Entry fee is \$15 (\$10 for club members). In order to guarantee a spot it is recommended that shooters be signed in by **5:00 PM**. Matches are limited to 42 shooters. Eye and ear protection is mandatory. All safety rules will be strictly enforced.

What is Pin Shooting?

The standard **5 pin** event uses a two tier table, with three pins on the bottom and two on top. The pins are set 25 feet from the firing line. The shooter starts with firearm in hand resting on the rail. At the start signal the shooter tries to shoot all of the pins completely off the table within 15 seconds. Your elapsed time for the table is your score. The procedure is repeated for a total of six tables. Your worst score is deleted and the remaining five are added up for your total score. The smallest recommended auto caliber is the 40 S&W. For revolvers a .357 Magnum is the smallest reliable caliber. There is no limit on magazine capacity or number of reloads for auto shooters. Revolver shooters can use a second revolver rather than reload. The second revolver may not be single action.

Shooters have the option of shooting the **Sportsman** class. Any centerfire revolver or auto, 9mm or larger can be used. Five pins are set on the lower level of the table and on the back edge. All other rules are the same as 5 pin. This event can be shot on any night in place of the standard 5 pin event.

Other events

9 pin – at the back of the table on the lower level, centerfire only 9mm and above.

22 rimfire – 5 pins on the back of the lower level. Shooter can use a pistol or rifle.
